Jomo Kenyatta University of Agriculture and Technology
2021 – 2025

ABOUT

My name is James Njenga.

I am a web developer with a firm understanding in frontend web development skills.

I am passionate and eager to collaborate with other developers to create amazing projects.

WORK EXPERIENCE

Software Developer.

Institution: Jomo Kenyatta University of Agriculture and Technology

- Partnered with other developers in creating a frontend of a [gym website](#) using React JS that is aimed at helping women access useful helpful tutorials that help them stay in shape.
- Created an [ecommerce app](#) that the purchase of electronic accessories and integrated it with stripe payment systems using Next Js.
- Developed a [weather](#) app using JavaScript and an api from RapidApi hub.

- I have experience in the development of an article [summarizer](#) using OpenAI's GPT model.
- In my journey through programming, I have also been able to develop a [Netflix](#) clone website using React Js, firebase authentication API, a TMDB api to source movies and also integrated it with a stripe checkout mode of payment.
- Nike clone website with both google authentication and phone OTP verification. The site has been developed using Vite which is a JavaScript framework similar to react. [Click Here](#) to view site.
